SECTION 1: Divesting Federal Resources from Incarceration and Policing & Ending Criminal-Legal System Harms

THE BILL WOULD:

❖ Eliminate federal programs and agencies used to finance and expand the U.S. criminal-legal system, such as the Department of Defense 1033 program, the Edward Byrne-Justice Assistance Grant Program, Community Oriented Policing Services, the Drug Enforcement Administration, and Immigration and Customs Enforcement. The bill would ensure that non-punitive, non-carceral elements of these programs are identified so that they can be transferred to another funding source.

❖ Make recommendations to dramatically reduce the Department of Defense budget.

Directly make changes to the federal criminal-legal system, including changes to the policing, prosecution, sentencing, and jailing practices that have disproportionately criminalized Black and Brown communities, LGBTQIA people, Indigenous people, and disabled people. Specific changes include, but are not limited to:

- Eliminating surveillance tactics that are disproportionately used to target Black, Brown, and Muslim communities by prohibiting predictive policing, facial recognition technologies, drones, and similar tools;
- Eliminating the use of electronic monitoring, including ankle monitors, smartphone applications, and any other tool used to track location;
- Ending civil asset forfeiture;
- Abolishing mandatory minimum sentencing laws;
- Ending life sentences;
- Abolishing the “three strikes” law;
- Developing a time-bound plan to close all federal prisons and immigration detention centers;
- Repealing federal laws that criminalize human movement and border entry;
- Further repealing and replacing the 1994 Violent Crime Control and Law Enforcement Act with non-carceral, non-punitive investments in communities; and
- Decriminalizing and retroactively expunging drug offenses.

SECTION 2:
Investing in New Approaches to Community Safety
Utilizing Funding Incentives

THE BILL WOULD:

❖ Create federal grant programs that incentivize decarceration and subsidize non-punitive, community-led approaches to public safety. Such grants will:

➢ Make grants to local jurisdictions so that they can make and implement tailored plans to decarcerate their jails and/or defund their police forces;
➢ Offer a 50% federal match for projected savings when States and/or local jurisdictions close detention facilities, including (but not limited to) local jails, State prisons, and youth prisons; and
➢ Incentivize State, tribal, and local governments to make specified changes that shrink their criminal-legal systems and, in return, provide federal funding to make non-punitive, non-carceral, participatory investments in communities.

❖ State, tribal, and local policy changes incentivized under the grant programs include, but are not limited to, the following:

➢ Banning pretextual stops and "consent" searches;
➢ Removing police, armed security, metal detectors, and other surveillance equipment from schools and government offices that provide social services;
➢ Abolishing State gang databases;
➢ Eliminating all fees and surcharges within the criminal-legal system and forgiving outstanding court debt, reducing a financial burden that falls disproportionately on Black women;

➢ Decriminalizing and retroactively expunging State drug convictions;
➢ Categorically eliminating misdemeanor and “pay only” probation;
➢ Until ICE and CBP are fully dismantled, ending State and local police entanglement with Immigration and Customs Enforcement (ICE), Customs and Border Protection (CBP), and all federal immigration enforcement agencies;
➢ Repealing all existing State juvenile offenses; and
➢ Banning the use of police agencies as tools of political repression.

❖ If States are selected as a recipient of the grant programs, funding must be used to fund non-carceral interventions that improve community safety and are selected through a participatory process. Selected interventions may include, but are not limited to:

➢ Transformative justice and healing justice programs;
➢ Violence interruption and intervention, including in domestic violence situations;
➢ Abuse interruption, intervention, and prevention;
➢ Park redevelopment, streetlights, and other infrastructure;
➢ Neighborhood mediation programs;
➢ Supportive housing;
➢ New, accessible methods of processing 911 calls that reduce unnecessary contact between law enforcement and community members;
➢ Safe passage to schools programs;
➢ Funding for community-based organizations that provide voluntary, non-coercive health services and healing supports for communities so that they can recover from exposure to violence, abuse, and/or harmful interactions with police; and
➢ Employment opportunities that benefit formerly incarcerated individuals.
